NORAH ANENA FOUNDATION

ANNUAL REPORT

2016

We are excited as we come to the end the year of 2016 and all our students are now back home for holidays. We would like to convey to the entire US-NAF team our warm greetings. In this communication, we wish to address the following issues:

Beginning of term I 2017

The official opening date for term I is scheduled for Monday 6th Feb 2017. However Boarding schools are requiring all students to report by Sunday **5th Feb 2017** before 5pm so that teachings starts as normal on Monday.

Academics

There has been a commendable improvement among the students. Below is a table showing the academic performances of our students.

Gender * Grade Cross tabulation

		Grade					
		Div I	Div II	Div IV	Fail	Result pending	Total
Gender	Male	2	1	0	0	1	4
	Female	1	0	1	1	2	5
Total		3	1	1	1	3	9

Source: Report cards

Of the 9 Students currently under direct monitor of Gulu office, 3-Students were in Div I, 2 boys and one girl. One boy obtained Div II, one girl in Div IV and another female student Senior 5 whose results need improvement. The remaining 3 students whose results are pending sat for their UCE-National exam which will be released next year and we are also optimistic they will perform.

School fees and other requirements

We are grateful that we shall be entering a new year without any fees balance. Below is the projected Tuition fees requirement for our students who will be reporting for the next academic term. There has been a slight increment on school fees by most schools.

NAF STUDENTS' FEES STRUCTURE & DETAILS-Term I 2017

Discipline

Our students' discipline seems to be improving quite well as we didn't hear of or receive any cases arising from indiscipline of any of our students at school or home. This will encourage us to do more to improve the moral being of our students.

Recommendations

As we begin a new year, we feel these areas also need to be looked into:

- We have heard of cases that our students at St. Julian often are not allowed to attend classes unless fees are fully cleared. We suggest we try to build a good relationship with a school that is considerate enough to students and can give us time to look for the fees balance as our students go to classes.
- We also recommend that the follow up/school visits be extended to every student in the other schools. We are happy that all those students visited were encouraged and their results were promising too since they got the chance to share their story and also heard what is expected of them. The visits make us assess and give us the chance to get views directly from the teachers on how our students often behave or concentrate while at school.

Conclusion

We are so grateful for the tireless effort, financial, and material support accorded to our students and NAF-Uganda office during the course of this year. May God continue protecting and blessing the fruit of your hand.
